

ADVENTURE CHILDREN'S THEATRE (A.C.T.)

Setting the Course

Adventure Children's Theatre has a 3 fold focus:

- Creating bold new works for the stage
- Fostering community
- Putting the play back in the play

From an artistic standpoint we draw on a wide variety of rich theatrical traditions and styles to create our own unique theatrical flavor from classical American musical theatre and 19th century melodrama to Italian commedia dell'arte and French farce, from mask, puppetry and clown to vaudeville and slapstick.

From a community standpoint our work reflects and supports the work of parents and teachers as they strive to raise the next generation. Whether putting on a one week intensive all school play, attending an after school drama club class or taking part in a summer drama camp, theatre brings people together. A community is formed in a wonderful, unique, and rewarding way. We gather together, we unite in the goal of telling our stories. We celebrate each other.

From a kid standpoint the play has to be fun for everyone on stage. The telling of the tale becomes play when the show becomes a game that everyone can win. We work hard to make sure every child is in the game. That means every part has to pass the fun test from page to stage

See our slide shows on the Adventure Children's Theatre page of our web site.
